BLACK HILLS STATE UNIVERSITY

BIOLOGY

BACHELOR OF SCIENCE (B.S.)

EXPLORE THE LIVING WORLD

A Bachelor of Science degree in Biology from BHSU provides students the opportunity to explore the diverse sub-disciplines of biology. Students may choose an emphasis in Environmental Biology with laboratory and field courses that focus on ecological principles, plant and animal biology, and conservation; an emphasis in Forest and Grasslands Ecology; or an emphasis in Cellular Biology and Physiology with lecture and laboratory courses ranging from Cell & Molecular biology, to Neurobiology, and Genomics.

Through the rigorous curricula provided in each emphasis, students will learn to design experiments, interpret biological data and communicate biological concepts and research findings effectively. Students completing a Bachelor of Science degree in Biology from BHSU will find themselves:

WELL PREPARED FOR GRADUATE PROGRAMS in a wide variety of biological disciplines.

WELL PREPARED FOR ADMISSION TO MEDICAL SCHOOL or other professional programs in the biomedical sciences.

ABLE TO COMPETE WELL FOR JOBS, whether in the biotech industry or in positions in state or federal agencies.

FIND YOUR CAREER

- Medical Professional (MD, MD/PhD, DO, PA, PT, OD, DDS, and others)
- Healthcare Careers
- Natural Resource Specialist
- Veterinary Medicine
- Forensics
- Cytogenetics
- Genetics
- Physiology
- Botanist
- Ecologist
- And many other biological fields.
