BLACK HILLS STATE UNIVERSITY

FOREST AND GRASSLAND ECOLOGY SPECIALIZATION

BACHELOR OF SCIENCE IN BIOLOGY (B.S.)

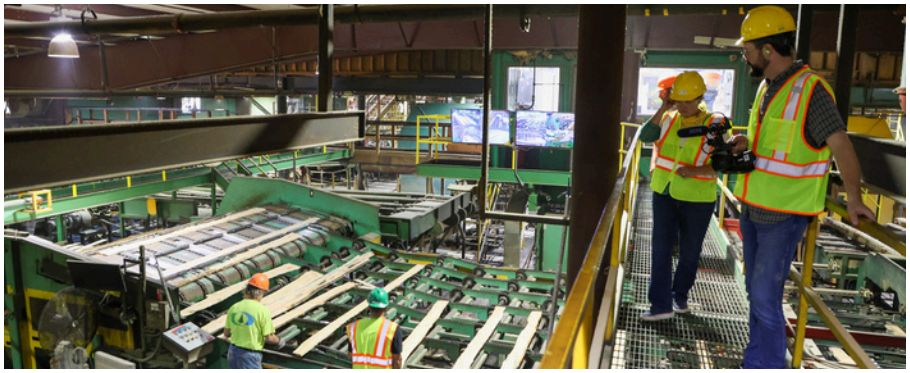

YOUR CAREER IN FOREST AND GRASSLAND ECOLOGY STARTS HERE

Are you passionate about safeguarding the planet and promoting biodiversity? Do you want to make a real impact in managing our natural resources? Join the Forest and Grassland Ecology (FGE) emphasis and learn how to shape the future of land conservation and management in South Dakota and beyond.

In the FGE program, you'll receive hands-on training in managing local forests and grassland ecosystems. You'll gain real-world experience connecting to regional agencies and industry stakeholders, providing opportunities for future collaborations and employment. The program includes coursework focused on developing technical skills in soil analysis, forestry techniques, grassland surveys, plant identification, and land-use management.

You'll have opportunities to engage with faculty and peers in small, interactive classes. Additionally, there are research and internship opportunities at BHSU and regional state and federal offices, allowing you to gain valuable, practical experience.

By joining the FGE program, you'll be helping to meet the growing demand for skilled professionals in both agencies and the private sector. Plus, you'll have the chance to work outdoors and build skills directly applicable to the job market. Join us in protecting our natural world for future generations.
