

CURRICULUM AND INSTRUCTION

MASTER OF SCIENCE IN CURRICULUM AND INSTRUCTION (MSCI)

GET A MASTER'S IN CURRICULUM AND INSTRUCTION AT BHSU!

The Master of Science Curriculum & Instruction (MSCI) graduate program at Black Hills State University facilitates professional growth while preparing professionals for leadership in roles beyond the classroom.
As a practicing teacher, you will bring your learning directly to your classroom while you develop an advanced knowledge of theory and practice. In your final year of the program, you will develop a relevant action research project to inform your practice as well as your community.

CAREER OPPORTUNITIES:

Graduates with a Master of Science in Curriculum and Instruction may seek additional career opportunities such as a state or district curriculum director, teaching and learning specialist, content leader within a building or district, or instructional coach.

ADMISSION REQUIREMENTS:

To be considered for the program, students must have:

1. An undergraduate degree in education (BS or BA)
2. A cumulative undergraduate grade point average of 3.00 or higher
3. At least 3 years of professional teaching experience
