BLACK HILLS STATE UNIVERSITY

OUTDOOR EDUCATION

BACHELOR OF SCIENCE (B.S.)

PASSIONATE ABOUT THE OUTDOORS?

BHSU's Outdoor Education Program will prepare you for a professional career in one of many fields, including adventure education, parks interpretation, and environmental education. You will be grounded in experiential education theory and natural history knowledge; develop skills in outdoor pursuits, education methods, and interpretive communications; and become adept at outdoor program management. As a student, you will practice program delivery via our numerous partnerships with regional parks, nature centers, and camps, as well as with BHSU's Collegiate Outdoor Leadership Program (COLP).

Obtaining a degree in Outdoor Education from BHSU will equip you for numerous careers. You will have all of the knowledge necessary to become an educator within natural resource management agencies, parks, zoos, aquariums, eco-tourism programs, wilderness programs, 4-H extension programs, non-profits, lodges, and other locations that value hard-working, knowledgeable, well-rounded educators.
If any of this interests you, then the Outdoor Education program at BHSU is the right degree path for you!
