BLACK HILLS STATE UNIVERSITY

SCIENCE EDUCATION

BACHELOR OF SCIENCE IN EDUCATION (B.S.ED.)

COMBINE SCIENCE AND PERSONABILITY

Become equipped to meet the tremendous demand for high quality science teachers throughout South Dakota and across the country with a degree in Science Education from Black Hills State University. The U.S. Department of Education lists science teachers as one of the areas in which there is a shortage of qualified teachers.

PREPARE FOR YOUR FUTURE BHSU focuses on providing an integrated curriculum that prepares future teachers to teach science. This affords students the opportunity to become deeply immersed in the content of biology, chemistry, earth science or physics while learning innovative strategies to help teach the subjects. Teaching methods include classroom observations, laboratory lessons, field experiences, and research.

ENJOY THE EXPERIENCE Participate in extensive content and clinical experience that will prepare you for teaching assignments in multiple areas of Science Education. The demand is high for teachers to be certified in science. Why not start your journey towards certification today?

FIND YOUR CAREER

This program is intended to prepare you for a career as a Science Teacher. Other employment opportunities in a variety of sectors:

» Curriculum Developer

» Museum Educator

» Zoo and Aquarium Educator

» Educational Outreach Provider

» Education Researcher

» Software Engineering
